

ANADOLU DİDİM CLUB ENVIRONMENTAL POLICY

- Preventing or minimising pollution and damage to the environment by controlling factors that could cause environmental pollution
- Fulfilling legal obligations and complying with environmental legislation
- Minimising the impact on the environment by using the best available technology during our activities
- Sharing our environmental protection efforts with our employees, customers, suppliers and the community
- Providing continuous training to our employees, taking into account evolving and changing conditions
- Ensuring continuous improvement
- Undertaking efforts to reduce waste at source, reuse or recycle it, and implementing activities to prevent unnecessary resource use in order to prevent environmental pollution

We commit to these principles.
